

SEKURBLOK 10H

- **Robust:** high resistance synthetic carter, offering a long durability
- **Safe:** for maximum loads of 140 kg reducing the impact force to below 6kN
- **Swivel ring:** to avoid entanglement and improve the function of the device
- **Fall indicator:** in case of fall the green line turns red, indicating the fall of the user

Material	
Cable	Galvanized Steel (4,5mm)
Housing	Synthetic

Norm	EN 360 VG11 CNB/P/11.060:2014
Length(m)	10
Weight (Kg)	3,77
Stopping distance (m)	1,75
Height (mm)	263
Largo (mm)	172
Width (mm)	87
Load (Kg)	100
Static resistance	15 kN
Impact power	< 6 kN
Lifeline (years)	10 years of use +1 storage year

SEKURBLOK Conector

Lower 976 conector	
Gate	20mm
Material	Steel
Resistance	23 kN
Closure	Automatic
Swivel	Yes
Fall indicator	Yes

Upper 981 conector	
Gate	18mm
Material	Steel
Resistance	25 kN
Closure	Screw
Swivel	No
Fall indicator	No
